- Bachelor of Computer application

SKILLS

- HTML
- CSS
- Javascript
- React.js
- Node.js
- Express.js
- Data Structure

LANGUAGES

- English (Fluent)
- Hindi (Fluent)

PROFILE

As a proficient Full Stack Developer, I possess a robust skill set in both front-end and back-end technologies. My front-end expertise includes HTML, CSS, JavaScript, and the React framework, allowing me to create dynamic and responsive user interfaces. On the back-end, I am experienced with Node.js and Express, enabling me to develop efficient server-side applications. Additionally, I have a strong command of MongoDB for database management and Tailwind CSS for streamlined and modern styling.

WORK EXPERIENCE

SKILL ACADEMY BY TESTBOOK

2023

FULL STACK DEVELOPER (Intern)

- During my one-month internship at Skill Academy, I had the privilege to dive into the realm of full stack web development, gaining hands-on experience in both front-end and back-end technologies.

PROJECTS

HOTEL-BOOKING

2023

- **Responsive User Interface:** The user interface is designed to be intuitive and responsive, ensuring seamless navigation across devices. Users can easily search for hotels, view detailed information about available rooms, and proceed with the booking process without any hassle.
- **Real-time Availability Checking:** The system integrates with a database of hotels and room inventory, enabling real-time availability checking. Users are presented with up-to-date information on room availability, ensuring accurate booking transactions.

HOBBIES

- **Sudoku Solving:** Sudoku solving is not just a pastime for me; it's a mental exercise that I thoroughly enjoy.
- **Traveling:** Traveling is another passion of mine. I love exploring new destinations, immersing myself in different cultures, and discovering hidden gems off the beaten path.
